Education

International Institute of Information Technology Hyderabad

M.Tech in Product Design and Management

Vishwakarma Institute of Technology

Bachelor of Technology in Instrumentation Control (CGPA: 8.41 / SGPA 9.73)

Hyderabad, Telangana

July 2025 - Present

June 2023

Pune, Maharashtra

Experience

SucSEED Ventures

Technical Product Intern

May 2026 - Present

Hyderabad, Telangana

- Led product strategy and discovery initiatives, conducting user research and stakeholder interviews to identify key pain points and opportunities.
- Collaborated with cross-functional teams to define product requirements, prioritize features, and drive product roadmap decisions aligned with business goals.
- Applied structured frameworks for competitive analysis and market research to inform product positioning and go-to-market strategies.

Product Lab @IIIT H

Product Analyst

Mar 2026 - Apr 2026

Hyderabad, Telangana

- Interviewed the core engineering team to surface assumptions, pain points, and unvalidated user needs, synthesizing findings into actionable product insights.
- Uncovered an untapped stakeholder segment - FMCG, logistics, and consumer tech brands - enabling a new use case around real-time regional news sentiment monitoring.
- Mapped how the existing pipeline could power brand perception monitoring, crisis detection, and location-specific PR intelligence with zero architectural changes.

The Robotics Forum

Embedded System

Jan 2021

Pune, Maharashtra

- Microprocessor Expertise: In-depth knowledge of microprocessors, including 8051 and 8061, encompassing their architectures and functionalities.
- Successfully contributed to the development of a multifunctional robot. Implemented motor control, motion, and manipulation using a combination of MATLAB and basic C programming languages.
- Applied embedded systems principles to design and program a robot capable of dynamic movements, manipulation tasks, demonstrated proficiency in coding and integrating software with hardware components for seamless robot functionality.

Projects

NETFLIX MOVIE RECOMMENDATION | R Studio , MySQL

- Basic use of R studio to compile a data set and rank the shows according to most watched
- Displaying the most-watched statistic and userinput and giving the desired movie output based on likes and ratings

COLABORATIVE CODE EDITOR | Node.JS, Socket.io, Express.JS

- Developed a real time multi-user code editor, where people can work seamlessly with each other in a single project.
- Helps to reduce work done to integrate project after individual parts are implemented.

CRUD REST API | Node.JS, Mongo DB, Express.JS , JSON

- Designed a project where we fire basic queries like CREATE DELETE UPDATE using node js and express js in json script
- The project was implemented keeping in mind how we can run a school Database online , for storage and database MongoDB was used

Technical Skills

Languages: Java, JavaScript, C++, C, SQL, MySQL, Python

Technologies: React.js, Angular, Spring Boot, Express.js, TensorFlow, PyTorch, jQuery, Bootstrap, Node.js

Concepts: Operating System, Transaction and Concurrency, Database Normalization, Algorithms, Computer Architecture and Digital Logic

Certificates: C++ , Python , Node, Express and Mongo DB
